EXPERIENCE

Systems Integration Technology Consultant	Accenture	June 2013 - Jan 2016
--	------------------	-----------------------------

NC FAST - North Carolina State Medicaid System Implementation

- Authored and executed test cases, conditions, and scripts to ensure defect free releases into the production environment
- Directed the weekly defect meetings held with the client to confirm severity and priority of system related issues to assist in timely resolution
- Resolved an average of 20 help-desk tickets per week from the production environment to assist users understanding of system functionality and escalate potential issues

PROJECTS

Remember The Catnip (<i>Ruby on Rails, React.js</i>)	Live · Github
---	--

A single-page task/reminder app inspired by [rememberthemilk.com](#)

- Uses customized queries that filter tasks based on due date to categorize tasks by deadline
- Includes dynamic task form that responds in real-time through event listeners on the DOM
- Integrates Google Maps API for address autocomplete and location display

Cow Jumper (<i>JavaScript, HTML5 Canvas</i>)	Live · Github
---	--

A browser based side-scrolling obstacle game

- Contains an obstacles queue that refills every 10 cycles to allow for infinite playing
- Sustains user engagement by integrating a leveling system for generating faster obstacles
- Maintains high score in local storage to persist into future games

freeDOM (<i>JavaScript</i>)	Github
------------------------------------	-------------------------------

A lightweight DOM Manipulation library

- Provides DOM interaction functions for selection, event delegation, and AJAX requests

SKILLS

Ruby	JavaScript	jQuery	HTML5	Git
Rails	React	Flux	CSS3	SQL
